With reference to Mr.Thumbu Chetty's demi-official letter No.1906 dated 20th March 1918, regarding the transfer temporarily of certain land, to the British Military authorities for a new Dhobi Ghat at Hebbal, I send herewith letter No.849 dated 27th April, from the Deputy Commissioner, Bangalore District, reporting that the plot of land as marked in the original plan, differed from that actually required, and that the plot now selected was 100 feet to the west of that in the original plan, leaving out an equal extent on the east of it. As there was not much difference in the position and as the extent remained the same, the land has been handed over to the military authorities.

Paper under discussion

I submit the papers for information.

A sketch shewing both the original and the revised plots is also submitted.

Dated Bangalore, 23rd February 1918.

SIR,

I am directed to forward for information a copy of letter No. 1259, M.W.S., dated the 21st February 1918, with enclosure, from the General Officer Commanding, Bangalore Brigade, asking for the temporary use of a small piece of land shown in the plan to be utilised as a site for a new Dhobie Ghat. In the special circumstances ~~are~~ explained, the Hon'ble the Resident hopes that the Durbar will be able to meet the wishes of the Military authorities in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

First Assistant Resident.

Letter No.1259 M.W.S., dated the 21st February 1918, from the General Officer Commanding, Bangalore Brigade, to the First Assistant to the Hon'ble the Resident in Mysore.

I have the honour to inform you that the small piece of land at Hebbal shown in the attached plan is urgently required as a -- temporary measure, for Military purposes, and would request you to kindly approach the Mysore Goverment in the matter.

Owing to the shortage of filtered water in the Civil and Military Station, it is desired that the Military dhobi ghats at Hebbal Camps, which now use filtered water, should be replaced by a new dhobi ghat using only the unfiltered supply. The unfiltered supply main crosses the Tumkur road in the position shown on the plan. By tapping the main here and establishing a dhobi ghat on the ground asked for, it would be possible to save a considerable amount of filtered water.

I would point out that the site of this proposed Dhobi ghat would be much further from the Palace than ~~than~~ the present dhobi ghats which are within the camp areas.

The Military authorities undertake to give up the ground and remove the ghat without compensation when the present temporary -- camps are vacated.

As it is a matter of very great urgency to conserve the supply during the approaching hot season, I shall be glad if you would ask the Mysore Government the favour of giving the request their earliest possible attention.
